Dear Sir,

I am a small furry slime mold from the dual system planet CY30-CY30B. I am writing to you on behalf of the Intergalactic Mind Numbing Cartel about your newly-acquired space pants.

The Cartel wishes to advise that your space pants are perfectly safe for all outer space environments, and planets made of meatloaf with twisted frosting mountains and rivers of Glum Bicarbonate.

You may have heard rumours that your dynamic and newly-acquired space pants are unsafe in some space environments. We wish to advise that this is most definitely not the case. It is only slanderous rumour aimed at bringing the Cartel into intergalactic disrepute.

We emphasize that these rumours are quite false, and your space pants are perfectly safe to wear in the vacuum of space, as shown in the enclosed pictures. You may pee in them with impunity, and crapping your space pants is totally not a problem. No really.

Furthermore, you are cordially invited to attend our bi-annual space pants peeing and crapping contest, to be held this coming October on CY30-CY30B.

Cordially & rectally yours,
Gordon Furry Slime Mold
CY30-CY30B System

To: Mr. Furry Slime Mold
CY30-CY30B System

Dear sir,

I am disgusted with your terrible space pants. They were unable to handle even a single turd. When worn in a vacuum, they failed to contain my genitals. The instruction manual appears to have been poorly translated from Chinese. You shall be receiving one pair of fecally encrusted space trousers shortly.

Oh, don't worry, I'm already writing about this on epinions.com. You shall rue the day you sold me those shoddy cosmic pantaloons. I have attached my receipt in ancient zip format.

Yours in disgust,
Xth9or Transisp

Hello again, good sir,

we thank you for your colorful and somewhat engrutled feedback on our premium quality space pants.

We wish to point out that our instruction manuals are not poorly translated from Chinese. They are in fact poorly translated Uranian English.

As for the matter of fecal encrustation, this is perfectly normal for our space pants. Oh what? No sorry that's not right. Um, just pretend the fecal encrustation problem isn't happening and it will soon disappear. Honest. Your genital containment experience may be remedied by installing our Q68 Qua-Qua Vacuum Booster. We are sending the luxury edition Q68 right away. Right away sir. Right away.

The Cartel thanks you for sending your receipt, but unfortunately we can no more accept the ancient zip format than we can make a decent pair of space pants. To recompense you we are sending a Hollywood actor your way. Russell Crow should be showing up in your area any moment now. He will get to you eventually, for Russell possesses great acting skills despite his anger management difficulties.

We thank you for your custom and look forward to disappointing you with more of our shoddy rectal space products in the future.

Cordially & rectally yours,
Gordon Furry Slime Mold
CY30-CY30B System
